HUBBARDTON FORGE.

The Vine Chandelier

PROUDLY MADE IN VERMONT

An eye-catching beacon in our Vermont Flagship – by popular demand we started offering the Vine Chandelier for the home.

Inspired by clusters of grapes growing on vines in the South of France, Simon Pearce Head of Design + Product Development James Murray created the now-iconic chandelier silhouette that lights the Simon Pearce Bar in Quechee. Each glass globe is handcrafted by our master glassblowers, thus creating a truly unique and one-of-a-kind piece.

Designed to illuminate your dining table, kitchen island or entryway in beautiful handblown glass and hand-forged metal, each piece is made-to-order with a commitment to quality and craftsmanship.
